

# Naol Melesse

Software Engineer

naolmelesse91@gmail.com | +251 936656646 | Addis Ababa, Ethiopia

PORTFOLIO | HACKERRANK | GITHUB | LINKEDIN

## EDUCATION

MARWADI UNIVERSITY

BACHELORS COMPUTER ENGINEERING

CGPA: 3.6

July 2019 - May 2023

Rajkot, India

## EXPERIENCE

ASITE | UI DEVELOPER INTERN

Ahmedabad, India | Jan 2023 – Apr 2023

- My main roles while I worked as UI developer at Asite were developing Angular components for the internship project
- I worked along with other interns on our internship project
- My tasks involved providing design ideas, collaborating with others on different parts of the project, coding, code reviewing
- Skills gained: using version control softwares like Bitbucket and Git, time management, problem-solving, working as part of a team, communication, code structuring, collaboration, JIRA

## SKILLS

PROGRAMMING LANGUAGES

LIBRARIES/Frameworks

TOOLS / PLATFORMS

DATABASES

HTML5/CSS3, Javascript, Typescript, Java

React.js, Next.js, Node.js, Express.js, Bootstrap, Tailwind, JQuery

Git, Github, Figma, Strapi, Cloudinary, Postman, Stripe, MUI

MySQL, MongoDB

## PROJECTS / OPEN-SOURCE

GOBUS - BUS TICKET BOOKING WEB APP | [LINK](#) ReactJs, NextJs, Tailwind, Strapi, PostgreSQL, Stripe, Cloudinary Autho

- This project was aimed to provide an easy and simple way to book a bus ticket
- It is possible to manage bus tickets and can be modified if required

MOSAIC - DISCOVER AND BUY ARTWORKS | [LINK](#) React, NextJs, Tailwind, Strapi, PostgreSQL, Stripe, Cloudinary

- This is a project where people can discover artworks from different artists and purchase them.

LEARNING MANAGEMENT SYSTEM | [LINK](#)

Angular, Figma, TypeScript

- This is an internship project I have done with my team during an internship at Asite.
- My tasks included designing and developing some parts of the UI, collaborating with others to develop different components, debugging
- I have gained these skills during these project: working as part of a team, problem-solving, writing clean code, code reviewing, collaborating using git and github, following industry standard project structuring

FURGO - CAR SHARING WEB APP | [LINK](#)

React.js, Node.js, SCSS, Express.js, MongoDB

- Developed a web app where users can sign up as a host for a car or as a renter from a host
- Designed the UI using Figma
- Embedded payment gateway using stripe
- Designed data schema of the user, rental history, car

## CERTIFICATIONS

- MTA: Introduction to Programming Using Java - Certified 2021 - **MICROSOFT**
- Database Programming with SQL - Oracle.
- Data Structures - **COURSERA**
- HTML, CSS, and Javascript for Web Developers - **COURSERA**
- Graphic Design - Honors - **COURSERA**

## HONORS & AWARDS

- Awarded Study-In-India scholarship in 2019
